

**Pr. Cristina García Viguera**

- Research Professor at the CSIC (Spanish National Research Council, Science Scientific)
- Research Scientist, Phytochemistry Laboratory at CEBAS-CSIC (Dept. Food Science and Technology)

Main Interest:

- Bioactive compounds of natural polyphenols
- Influence of process on bioefficacy of polyphenols

**Presentation during the conference:**

Pomegranate in food and drinks industries

- Pomegranate Bioactive compounds during production and storage
- Pomegranate in functional drinks: perspectives
